About TCCO: Tanzania Clubfoot Care Organization (TCCO) is a non-profit and non-governmental organization that has been initiated and established by committed people as a health systems intervention strategy for clubfoot treatment using the Ponseti Method. The Organization emphasizes using Ponseti Method (PM) because it is the internationally accepted gold standard non-surgical treatment for clubfoot to both young and older children and has been scientifically proven to achieve the best clinical results. It is minimally invasive, leads to fewer complications, and is cost-effective.

Ponseti manipulation and casting will even make surgery (if necessary) much easier and minimize complications. The Organization is registered under the Non-Governmental Organizations Act, No. 24 of 2002. Reg. No: 00NGO/R/1817

Vision: TCCO's vision is a Tanzania free of clubfoot disability.

Mission: TCCO is a coalition of providers and organizations committed to a Tanzania without clubfoot disability. TCCO treats children, trains providers, educates parents and communities, and advocates so that children with clubfoot can have quality and timely care.

Goal: At least 70% of children born with clubfoot will start treatment by 2023.

Objective: To ensure every child with Clubfoot in Tanzania receives timely and quality treatment using the Ponseti method as a gold standard treatment.

ACT Trainings Offered by TCCO

- Basic Ponseti training
- Advanced Ponseti training
- Refresher Ponseti training
- CAST- Training
- Parent Education Training

Total Trainings Offered by TCCO FY 2020/2021

- Total number of training participants in FY 2020/2021- 205
- Total providers trained by TCCO (All time) - 256
- Number of trainers at TCCO - 10

Highlights of FY 2020/2021 Strengthened leadership.

TCCO Executive board is comprised of five members who serve to develop, implement and monitor policies that allows the organization to carry out its work. For the FY 2020/2021, the TCCO executive board welcomed a new board member MS Natasha Mukangara.

MS Natasha Mukangara is a highly experienced Advocate with more than ten years of experience. She has a bachelor degree of LLB (Hons) in Law from the University of Dar es Salaam and a Master's degree (LL.M) in Corporate and Commercial Laws (dist). MS Natasha Mukangara shares TCCO vision and mission and we are fortunate to have her as one of our executive board members.

Karibu sana, TCCO
Natasha Mukuranga
